Present : Cl. for parties

An application for appointment of Local Commissioner for recording the statement of one witness Ramesh Sethi is on record. The same is opposed by counsels for other parties on the ground that there are chances of quarrel between the parties during the cross examination and they want examination of said witness in the court itself. Other PWs are still to be examined. The witness is stated to be of 75 years of age. As there is opposition on the part of other parties and there is no consensus between the parties on this issues. Let the said witness be called in the court and if thereafter court deems fit and cross examination is not completed in one day and witness really require discretion of the court then this court will decide the examination of the said witness by way of appointment of Local Commissioner. Counsels have not objection if the other witnesses are examined before the examination of Sh. Ramesh Sethi. Be put up for PE on 20.1.17.
