☪☪ Chief examination by the Assistance Public Prosecutor::

I am working as Orthopaedic surgeon at Prashamani Hospital, Koppa from 2007 to till today.

On 23/03/2022 at about 2-55 pm. When I was duty on call by name Jayamma , W/o Bellegowda , aged about 68 years, R/o Nandigodu, Niluvagilu , Koppa Taluk came with history of RTA near Annapoorna Hotel , Hariharapura dtd.20/03/2022 at about 1-15 p.m. I have examined CW 1 and found the following injuries;

1. Fracture tip of right fibula (Lateral malleus)
2. Fracture of second right rib.
3. Abrasion over both forearms and right knee
4. Abrasion over right ankle

In my opinion the above stated injuries 1 and 2 are grievous in nature

and 3 and 4 are simple in nature and I have issued a wound certificate. The witness was shown a document which is the wound certificate, the witness has identified the same and it was already marked as Ex.P.13 and the signature of the witness is marked as Ex.P.13(b) respectively.

It is true to suggest that, If a person is met a road accident then there is a possibility for the above stated injuries to happen.

Cross examination on behalf of the accused by Sri. MNS.,

Advocate
