

**IN THE COURT OF V ADDL., DISTRICT AND SESSIONS
JUDGE, SHIVAMOGGA, SITTING AT SAGARA**

Sessions Case No. 10006/2025

PW 12 CW 25

Deposition of	Dr. G. S. Chandrashekhar
Father's name	Siddaramappa G.S.
Age	62 Years
Occupation	Medical Director, Senior consultant physician, Adarsha Hospital, Udupi
Residence	Udupi

Duly sworn on 16-07-2026

(Witness examined through V.C.)

Examination in chief by the Public Prosecutor.

From 2005, I am working in Adarsha Hospital, Udupi.

2. The patient by name Heefa Marwa was admitted to our Hospital on 26.02.2024 with the history of consumption of Ratol paste. Earlier, the patient was taken to the Government Hospital in Hosanagara and she was given primary treatment in the said Hospital. Heefa Marwa was admitted to our hospital on 26.02.2024 at 11.05 p.m. She was treated in our Hospital from 26.02.2024 to 02.03.2024. Due to consumption of poison there was damaged to the Liver, Kidney and Lungs. Hence, we informed the relatives of

the patient that survival of the patient is very less. Hence, the relatives of the patient discharged the patient from the Hospital on 02.03.2024.

3. On 03.03.2024 the I.O. has submitted the requisition to our Hospital to submit the document regarding treatment given to the patient Heefa Marwa. Thereafter, I have sent the discharge summary of the patient to the I.O. Now, I see the certified copy of the discharge summary issued by our Hospital and the same is marked as Ex.P21. The IO had submitted requisition to provide the stomach wash of the patient which was collected at the time of the treatment. On 08.03.2024 I have issued a letter to the PSI, Hosanagara submitting that we have not collected stomach wash of the patient in our Hospital.

Now, I see the letter dated 08.03.2024 issued by me and the same is marked as Ex.P22 and the witness signature is marked as Ex.P 22(a).

Cross examination by Sri. RHB Advocate on behalf of the Accused

It is false to suggest that, the relatives of the patient got discharge the patient from our hospital against our medical advice. The remaining portion of the poison consumed by the patient was not produced before the Hospital. It is true to suggest that, based on the circumstances and the information

given by the relatives of the patient, we have treated the patient. The relatives of the patient informed us that the patient had consume rat poison, accordingly we gave the treatment to the patient. It is true to suggest that, if the relatives of the patient had produced the remaining portion of the poison, it would have been easy for the doctor to give treatment to the patient. I am the medical director in the Adarsha Hospital. I do not remember whether the police recorded statement of the deceased in my presence. It is true to suggest that, the patient was discharged from our hospital on 02-03-2024. It is true to suggest that, the police officer has to record the statement of the victim in my presence as I am the medical officer of the hospital. It is true to suggest that, with respect to MLC cases we maintain entire record of the patient in our Hospital. If the police had visited our hospital, same would have been recorded in our hospital records, but there is no such records in our hospital. The discharge summary was received by the aunt of the deceased.

Re examination : Nil

(Typed to my dictation in the Open court.)
