Examination-in-chief by APP Smt. A.K. Shaha

In the year 2018 I was working as a medical officer in Government Medical Collega and Hospital Akola. On 06.06.2018 Police Constable Vitthal B.K. 1240 had brought patient namely Nivrutti Baliram Thakare. On examination of the patient I found the injury on his left ear with stitches thereon. As per the referral letter the stitches on the left ear of the patient was done by Dr. Manoj Tayde. I found the laceration on the left index finger. There was the history of blunt trauma on left leg. I refer the patient to ENT department due to the injury on the left ear. I treated the patient from 06.06.2018 to 13.06.2018. Accordingly I issued the medical certificate. Now I am shown the medical certificate. It bears my signature. Its contents are true and correct. It is marked as **Exh. 38**. The injuries sustained by patient can be caused by hard and blunt object. However, the patient has narrated the history of road accident. Now I am shown the reference letter given by the Dr. Tayde. It is same.
