

Deposition of Witness No.09 for the prosecution.

I do hereby on solemn affirmation state that :

My name is : Dr. Shaikh Saeed Salim

Age : 45 years, Occ. : Class I Pediatrician, General
Hospital, Udgir, Tah. Udgir, Dist. Latur.

Examination-in-chief : by Shri. V.V. Deshpande, APP for the State.

1. I was working as Medical Officer at Rural Hospital, Renapur, on 03.06.2019. I have done MBBS, DCH. I examined seven injured persons on that day.

2. I examined Pandurang Sukhdev Shewale. I found : (1) CLW at occipital region, 2 x 1 x 0.5 cm, (2) Contusion at upper buccal, 15 x 2 cm, (3) Contusion at left scapular region, 12 x 1 cm, (4) Contusion on middle back at left side, 10 x 1 cm, (5) Contusion (swelling) at left forearm extensor aspect, 10 x 2 cm, and (6) Contusion and abrasion over right arm, near elbow anteriorly horizontal, 6 x 0.3 cm, minimal bleeding. All hurts were red in colour, simple in nature and caused by hard and blunt object and they were fresh. Accordingly, I prepared the injury certificate which at page No.26 now shown to me bears my signature, content in it is true and correct and it is at **Ext.139**.

3. I examined Amit Mohanrao Bhise. I found contused abrasion (tooth bite) on right arm at anterior aspect, 6 x 4 cm, red in colour, simple, fresh and caused by hard and blunt object.

Accordingly, I prepared the injury certificate which at page No.29 now shown to me bears my signature, content in it is true and correct and it is at **Ext.140**.

4. I examined Madan Uddhavrao Bhise. He complained about sustaining hurt by chilly powder into his eyes. Hence, I sent him for ophthalmologist examination. However, he did not visit there. Accordingly, the injury certificate at page No.28 now shown to me bears my signature, content in it is true and correct and it is at **Ext.141**.

5. I examined Shivaji Shrirang Bhise. He complained about sustaining hurt by chilly powder into his eyes. Hence, I sent him for ophthalmologist examination. However, he did not visit there. Accordingly, the injury certificate at page No.25 now shown to me bears my signature, content in it is true and correct and it is at **Ext.142**.

6. I examined Amol Shrikishan Bhise. I found : (1) CLW at right temporal region, 1 x 1 x 0.5 cm, bleeding, and (2 to 4) Contusions respectively at right forearm, left leg and left forehead, respectively 2 x 0.5 cm, 2 x 1 cm, and 2 x 1 cm. All hurts were red in colour, simple in nature and caused by hard and blunt object and they were fresh. Accordingly, I prepared the injury certificate which at page No.32 now shown to me bears my signature, content in it is true and correct and it is at **Ext.143**.

7. I examined Swapnil Shrikishan Bhise. I found : (1)

Infringed contusion abrasion, at back middle, 25 x 1 cm, and (2 to 5) Contusions respectively at right shoulder – 1 x 2 cm, left arm – 2 x 2 cm, right temporal region - 1.5 x 0.5 x 0.2 cm, bleeding, right shoulder – 10 x 1 cm. All hurts were red in colour, simple in nature and caused by hard and blunt object and they were fresh. Accordingly, I prepared the injury certificate which at page No.34 now shown to me bears my signature, content in it is true and correct and it is at **Ext.144.**

8. I examined Shrikishan Baburao Bhise. I found incised wound at left forearm, horizontal, 8 x 1 x 1 cm, bleeding. I referred this injured to GMC, Latur and after receiving the concerned medical papers, I found the injury was described as 10 x 5 x 1 cm, and simple in nature, in addition to the injury certificate I earlier issued. Accordingly, the injury certificate now shown to me bearing my sign and content in it is true and correct and it is at **Ext.145.**

9. Pandurang and Amit would have sustained injuries with the stick, vehicular chain and steel rod.

Cross-examination : by Shri. K.T. Jamdar, Adv. for the accused.

10. It is correct that temporal region comprising the part of head. It is correct that in case of the forceful trauma to said region, the person would meet to death. It is correct that I examined Shrikishan at 11.10 pm and Amol at 11.40 pm on 03.06.2019. Swapnil was brought to me at 1.00 am. I was not

told why he was lately produced. It is correct that the injury to Shrikishan might have caused with a sharp cutting weapon. It is correct that the injuries to Amol and Swapnil would have been caused with a steel rod and stick.

11. It is correct that the injury to Amit would have been caused with a object of the same shape like denture/dental shape.

Re-examination : Nil.
