

Witness present and duly sworn in on:17.12.2022.

**Chief examination: by Sri.B.Y.Ravi advocate for petitioner.**

I have filed my affidavit in lieu of examination in chief. The contents of the affidavit are true and correct to the best of my knowledge and belief.

Today I have produced the following documents in support of the case where clinical examination report is marked as Ex.P.15 and X-ray is marked as Ex.P.16.

**Cross examination: by Sri.Madhu Kiran advocate for respondent.**

I am not treated the petitioner. I have not seen the IP records or the follow up records. I have only assessed the physical disability. I do not know the avocation of the petitioner. I have examined the petitioner only on 14.12.2022. The petitioner can with difficulty perform his day to day activities. I have not enquired regarding the previous injuries sustained to the petitioner. I do not know about the physiotherapy if any availed by the petitioner. It is true to suggest that the disability would have lessened if the petitioner had availed the physiotherapy. It is true to suggest that the

disability of the petitioner, as on date of my examination has reached to its maximum level. It is false to suggest that the disability may lessen if the petitioner avails further treatment i.e., if the implants are removed. I have not obtained the opinion from the treated doctors before assessing disability. It is false to suggest that the muscle strength and power can improve if the petitioner avails physiotherapy. It is false to suggest that since the petitioner is of 24years, the injuries may heal up quickly in the future. It is false to suggest that the disability assessed by me is towards higher side. It is false to suggest that I am deposing falsely in order to assist the petitioner to get higher compensation.

**Re-examination: Nil.**

(Evidence deposed by the witness is computerized to my dictation in the open court).
