2) Reply of first party is at Exh.:-19. Application is opposed on the ground that second party is trying to show strength of employees more than 100 by adding employees working in other companies despite permanent closure of first party's manufacturing activity at Taswade. Documents called are not relevant. Certain documents are not traceable and not available with first party. Certain registers sought are not maintained by first party. So, notice of production of documents may be rejected.
