[Chief Examination-completed]

[Cross Examination by Adv.Shri. M.A.Pradhan for Respondent No.1].

5] It is true to say that, I did not examine him radiologically. It is true to say that, disability is assessed for particular limb and not for whole body. When the patient came to me, his fractures were united. Usually this kind of fracture takes 4 to 6 months to unite. It is true to say that, in this case, the age of patient was young and he has high and speedy recovery. It is true to say that, I have not taken any photo of the patient with respect to deformity. It is not true to say that, the mild pain will reduced over the time by physiotherapy. It is not true to say that, I have assessed disability on higher side. It is true to say that, the disability assessed by me is clinical disability and not occupational disability.
