24.07.2026

1. By filing a petition, the Petitioner no. 1 Mr. "A" (name withheld) and Petitioner no. 2 Smt. "B" (name withheld) u/s 13B of the Hindu Marriage Act, 1955 for dissolution of their marriage on mutual consent.
2. After filing of the petition six months time was given for their reconciliation but no fruitful result come out.
3. Both the petitioners have appeared today before this Court along with their engaged Counsel Mr. S. Choudhury after six months of completion of statutory cooling period.
4. Both the petitioner no. 1 and petitioner no. 2 have submitted their joint in chief in affidavit today.
5. I have also heard both the petitioners in person.
6. From the in chief in affidavit of the petitioners it reveals that that they had solemnized their marriage on 02.02.2023 according to Hindu rites and rituals and they stayed together for one year. Thereafter, differences of thoughts and life style started between both of them and they started to live separately from the month of March, 2024. Since, then they

did not have co-habitation and they are spending their independent life without any interference from each other. They further stated that inspite of best efforts of reconciliation but they failed to settled their difference amicably and now they feel that it is impossible for them to live together as husband and wife and as such, both of them had approached this court for dissolution of their marriage by granting a decree of divorce. The petitioner no. 2 stated that she would not file any case to claim any maintenance allowance in future from petitioner no. 1, nor there is any claim for maintenance is pending before any Court.

7. The petitioner no. 2 further mentioned that they had settled their difference and she had already received her entire streedhan, permanent alimony and there is no any pending issues between both the petitioners.
8. Hence, I find that this is a fit case to pass a decree of divorce on mutual consent.
9. The marriage between the petitioners is dissolved from today by a decree on mutual consent. Accordingly, the suit is decreed on mutual consent with conditions that ;
 - a) the petitioner no. 2 will not file any case against the petitioner no. 1 to claim any maintenance allowance in future from the petitioner no. 1 and the petitioner no. 2 had settled her differences with the petitioner no. 1; and
 - b) the their child will be in the custody of the petitioner no. 1 and he will look after her and will maintain her.

c) although the child will be in the custody of the petitioner no. 1, the petitioner no. 2 will have the right to meet her minor daughter.

10. Prepare decree accordingly.

11. The condition given by the petitioner no. 2 will form the part of the decree.

12. The Title Suit (Mutual Divorce) Case stands disposed of accordingly.
