I am working as a CMO at Mc.Gann Hospital, Shivamogga since July 2019. On receipt of court notice of this Court for deposing evidence today I present before this court. As per MLC on 22.10.2020 a patient by name Abdul Shakeer, 30 years, was present before me with acute history of RTA between Car and pedestrian at 9.30 a.m. on 22.10.2020. In this regard I have mentioned in MLC register and examined him and he was sustained cut lacerated wound on the palmar aspect on the left hand and multiple aberration on left hand and swelling over the left Knee joint. Then I have referred him to Orthopedic of our hospital. Then, on 02.12.2020 I have issued would certificate. The witness identified the would certificate and same got marked as Ex.P. 10. As per treatment report the petitioner has sustained grievous injury

Cross examination by Sri J.S.S. advocate :

It is true to say that, after examine the witness I have mentioned whatever injury sustained him in the note. It is false to say that, the alleged injuries which mentioned on the note are simple in nature. We have not treated the lacerated wound and aberrations wounds are as grievous in nature. Unless investigation we have not say as swelling wounds are either simple or grievous injury. After refer the petitioner for treatment then he did not come before me.

Re-examination : NIL.

Typed to my dictation in the open court.
