**முதல் விசாரணை**

When I was previously working at sirkali government hospital , on 11.01.2023 at around 2.55 pm a patient named Pavithra was brought by one Mariamma. There was an alleged history of assault by 5 known persons using wooden sticks, stones and also they mentioned about human bite at around 12.30pm on the same day in her residence. On examination, there was a laceration of 2\*2\*1 cm in the left forearm and also there was a fracture of the left 4th finger/ring finger. There was also an abrasion of 2\*2 cm in the left 3rd finger. I had taken x-ray of her left hand and the findings were confirmed. On such examination I gave the opinion that the nature of injury suffered by Pavithra is grievous. The document which is now being shown to me is the wound certificate that I have issued. (The said wound certificate is marked as Ex.P3).

**Cross examination:**

Q : Only the 2nd injury was grievous. Is it ?

A : Yes.

Q: If some 2 or 3 persons jointly beat another person using Wooden log, there are chances to cause several injuries and sometimes even fracture can occur. Is it?

A: Yes.

Q: The measurement of 2nd injury was not mentioned in the wound certificate. Is it?

A: Yes. Because, it was not externally visible.

Q: On examination did I mention about the tenderness of the said injury?

A: Yes. I have mentioned it.

Q: The injuries that I have noted could have occurred on slipping and falling to the ground. Is it?

A: There is a possibility for it.

Q: Did I observe any bite marks?

A: No.
