I.A. 6401/2024 (filed on behalf of the Plaintiffs seeking urgent directions)

1. Through this application, the Plaintiffs seek access to AWS Account No. 761404316429 for downloading the cloud watch and RDS logs in relation to the services that were active on the account and also the CloudTrail Lake and Event logs, server logs, system logs (or syslog's), Web logs etc.

2. Counsels for Defendant No.1 and 5 state that they have no objection to directions being issued to the Mediator for grant of access to the said

account.

3. Counsels for Defendant No. 1 and Defendant No. 5 suggest that since the mediator may not have the necessary technical wherewithal, the representatives of Plaintiffs as well as Defendants No. 1 and 5 should also remain present to assist the mediator, so that the account can be accessed smoothly.

4. In light of the above, the application is disposed of with a direction that the mediator shall be permitted to access the AWS account mentioned above. The date for the above purpose shall be fixed by the mediator in consultation with the counsel for parties. On the said date, the representative of both the Plaintiffs and Defendant No. 1 as well as Defendant No. 5 shall remain present to assist the mediator in securing the access to the account.

5. The representative of Defendant No. 5 is also directed to join the proceedings through video conferencing mechanism.
