20.08.2019

Compliance Reports have been filed both by the appellant as well as by the DCF (South), who is present in the Court.

The videography obtained through drone mounted camera has been filed by the appellant. It has been seen in the Court. At 1.06 minutes into the video, a depression is seen in the earth which tapers off towards a larger water body. The DCF states that he would endeavour to create another water body in the aforementioned depression by preventing the draining-off of rain-water. His statement is accepted.

No further orders are required at this stage.
