As per the calculation memo filed by the applicant, the total outstanding amount that has to be paid is Rs.53,32,341/-. The applicant has worked out the interest until 30.07.2025. The respondent has filed his calculation memo stating that the outstanding as on 04.11.2025 would be Rs.56,48,879.28/-.

2. The difference between two figures given by the applicant and the respondent is somewhere between Rs.3,00,000/- and odd. Since the difference is only narrow, I feel the parties can workout and arrive at certain amount which can be paid by the applicant in one go in order to finish their part of undertaking as per the terms of the compromise decree.

3. As the interest has been worked out up to 30.07.2025 and the learned counsel for the applicant requested time till 26.11.2025 to make their entire payment, I feel the outstanding amount can be rounded off to Rs.55,00,000/- which will be inclusive of the interest payable by the applicant till the date of payment of any date between today i.e. 04.11.2025

to 25.11.2025.
