

CMP(M) No. 1158 of 2023 in RSA

within time bound manner and due to the lapse on the part of the department the file was not sent within time for obtaining the legal opinion. It is correct that the application under Section 5 of the Limitation Act along with the memo of appeal were drafted by me. The same were drafted and were reached in the office of Chief Engineer on 15.09.2022. It is correct that in-spite of signing of the appeal on 13.12.2022 by the SE, the appeal could not be filed upto 09.01.2023, Self stated that due to paucity of the staff as well as other codal formalities, the same could not be send till 09.01.2023. It is correct that the appeal was submitted to the office of Learned Advocate General on 11.10.2022 and the it was vetted on 03.12.2022. Self stated that there were some objections from the Advocate General office and after making requisite corrections, it was finally vetted and filed. It is incorrect that due to laxity on the part of the department the appeal could not be filed within time. It incorrect that I am deposing false.
