

4 2.5.2016 Learned counsel for the informant disputes the medical prescription of the wife of the appellant no.4, as according to his statement, he has contacted the Doctor, who is alleged to have given the medical prescription and he states that the Doctor has informed him that the medical prescription is not in his handwriting. The sum and substance is that the document on which the interim prayer for appellant no.4 has been prayed for, is a concocted manufactured document. We would like, learned counsel for the informant to file a categorical affidavit in that respect.

At his request, put up this matter tomorrow (3.5.2016).
